CONTENT

MATHEMATICAL AND COMPUTER MODELLING		
R Muhamedyev, E Muhamedyeva, R Mustakayev, F Abdoldina	Factors and data for RES evaluation	**7**
N Adadi, M Berrada, D Chenouni, B Bounabat	Proposition of web services composition approach basing of model-driven approach and multi-agent systems	**12**
H Kashfi, F S Aliee	Security challenges of vehicular cloud computing applications: from software architecture viewpoint	**20**
P Pandey, S Singh	Fuzzy logic based job scheduling algorithm in cloud environment	**25**
A Magare, M Lamin	Cognitive evolution in software development life cycle through design thinking	**31**
A Soni, M Hasan	Optimal implementation of critical peak pricing in cloud computing	**35**
A V Baranov	Computer modelling in the physics course for IT students	**45**
H Khelil, A Benyettou, A Kacem	A comparative study between artificial immune system and incremental neural network for digits handwritten recognition	**50**
L Malyarets, E Kovaleva, I Lebedeva, E Misyura, O Dorokhov	Implementation of the heteroskedasticity testing for linear regression model	**56**

Authors' Index		**64**
Cumulative Index		**65**
